

Filed herewith is a PTO 1449 listing two documents that were brought to Applicants' attention less than three months prior to the filing of this amendment. Consideration of the documents is requested.

Prior art ROTE LISTE 1997 "CYCLO-cell" discloses only an effervescent tablet containing cyclophosphamide, but not the presently claimed film-coated tablet, and is not considered to be pertinent.

Prior art ROTE LISTE 1998 "CYCLO-cell 50" discloses a film-coated cyclophosphamide tablet containing corn starch, but no lactose monohydrate as a filler. In addition, the document does not specify whether the corn starch used is preswollen or non-preswollen, and the exact composition of the tablet is not disclosed. Accordingly, the presently claimed invention is submitted to be patentable over this document.

It is respectfully submitted that the application is in condition for allowance, and Notice to that effect is respectfully requested.

Respectfully submitted,

PILLSBURY MADISON & SUTRO LLP
